

BlueBlooded Sprint 1 Planning Document

Luke Smith

Sprint Overview

This sprint is mainly for building the base of the app, so that when we check in with Ryan Hammer on June 19th, we can show him the proper start of an app. This will mainly consist of authorization, navigation, and the basis of a discussion board. Getting the structure down will allow for the integration of more features more quickly, and speed up the process for deploying the app for Ryan.

SCRUM Master: Luke Smith

Risks and Challenges:

The challenges that will occur are building the app from the get-go. It will be hard to format and plug enough of Ryan Hammer's brand to make it a BlueBlooded app, and the discussion board is something I have never done before. Along with that, setting up a database and hosting it with

Supabase is new to me, and will be a challenge to do properly, and minimize the risk of a breach into the database.

Current Sprint Detail

User Story 1

As a user, I would like to sign up for an account to participate in discussion posts.

Number	Description	Estimated Time
1	Create UI screen for signup page	2.5 Hours
2	Connect form to Supabase auth	2 Hours
3	Add input validation	1.5 Hours
4	Error messages and success feedback/redirect	1 Hour

Acceptance Criteria:

- ~~Creating an account works~~
- ~~Invalid emails are not allowed~~
- ~~Invalid passwords are not valid~~
- ~~Duplicate accounts are not allowed~~

User Story 2

As a user, I would like to be able to log in to a previously created account

Number	Description	Estimated Time
1	Build login UI screen	1.5 Hours
2	Connect to Supabase auth	1.5 Hours
3	Handle error states	1 Hour
4	Redirect to home/nav on successful login	1 Hour

Acceptance Criteria:

- ~~Logging into a non-existent account is not allowed.~~
- ~~You can log in to a created account~~
- ~~You can only log in to your account with your password~~

User Story 3

As a user, I would like to reset my password.

Number	Description	Estimated Time
1	Build reset request UI	1 Hour
2	Wire up Supabase resetPasswordForEmail and configure redirect URL	1.5 Hours

3	Build new password entry screen	1 Hour
4	Validate new password does not equal old password, update via Supabase updateUser	0.5 Hours

Acceptance Criteria:

- Can't reset with the same password
- Can sign in with the new password
- Can not sign in with the old password

User Story 4

As a user, I would like to create a discussion post about a given topic.

Number	Description	Estimated Time
1	Design posts table in Supabase	1 Hour
2	Build create post UI screen	2 Hours
3	Insert post to Supabase and handle success/error response	1.5 Hours
4	Display newly created post immediately on success	1.5 Hours

Acceptance Criteria:

- ~~Discussion post can be created~~
- ~~The discussion post is displayed to the user~~
- ~~The discussion post is displayed to other users~~

User Story 5

As a user, I would like to be able to see discussion posts created by other users

Number	Description	Estimated Time
1	Build discussion board feed screen	2 Hours
2	Fetch posts from Supabase with newest first	1.5 Hours
3	Build post card component	1 Hour
4	Handle empty state	0.5 Hours

Acceptance Criteria:

- ~~Users can see discussion posts~~
- ~~Users can see other users' posts~~
- ~~Posts that do not exist should not appear~~

User Story 6

As a user, I would like to be able to like comments or replies that I find worthy.

Number	Description	Estimated Time
1	Design likes table in Supabase	1 Hour
2	Add like button UI to comment and reply components	1.5 Hours
3	Insert/delete like from Supabase on press, show current likes	1.5 Hours
4	Reflect liked state per user	1.5 Hours

Acceptance Criteria:

- Users can like a comment
- Users can like a reply
- ~~Users can unlike either whenever they see fit~~

User Story 7

As a user, I would like to be able to change details of my profile, such as school, username, bio, etc. (Settings)

Number	Description	Estimated Time
1	Design profiles table in Supabase	1 Hour
2	Build edit profile UI screen	2 Hours
3	Fetch current profile data on screen load and fill fields	1 Hour
4	Save changes to Supabase and reflect changes in UI	1.5 Hours

Acceptance Criteria:

- School is changeable
- ~~Bio is changeable~~
- ~~Username is changeable~~
- ~~Changes are displayed to the user and other users~~
